Subject: Portland Harbor FS Section 2 - Updated PRG tables
Attachments: 2015-06-05 Draft Final FS Section 2.2 Tables.xlsx

Bob and Jim - We have discovered some errors in the tables. These are the changes we have made:

1. Table 2.2-1, RAO 1: The units for cPAH were changed from mg/kg to µg/kg.
2. Table 2.2-1, RAO 1: The units for dioxins/furans (2,3,7,8-TCDD eq) was missing and have been added as µg/kg.
3. Table 2.2-1, RAO 2: The tissue value for PBDE was missing on this table due to a lookup issue that has been resolved.
4. Table 2.2-1, RAO 6: The sediment value for DDE was missing on this table due to a lookup issue that has been resolved. Also, 4,4'-DDE was added to Table 2.2-9.
5. Table 2.2-1, RAO 7: The PRG for DDx showed three significant figures but the last significant figure is really the footnote number from Table 2.2-10. This has been corrected.
6. Table 2.2-1, RAO 8: The PRG for manganese also showed an extra significant figure that was a footnote from Table 2.2-11 that has been corrected. The footnote has been corrected.
7. We also corrected the value for zinc in table 2.2-12 to 77 mg/kg.

Let me know if you find any other errors.

Thanks,

Kristine Koch
